

MOTOR AGE

June 2, 1910

In the 161 to 230 cubic inches 10 miles event, the field was reduced to four starters—two Buick 10s, a Warren-Detroit and a Columbus, two Cole 30s, two E-M-F 30s and a Fuller having been excused because of mechanical troubles. The race was a runaway event with the two Buicks, both of which shattered the previous 10-mile record of 9:49.46, made by a Chalmers 30 at Atlanta last fall. Chevrolet made the distance in 9:03.60, and Burman in 9:14.86.

CHEVROLET IN THE LITTLE BUICK BREAKING RECORD
