

# BUICK FIRST

Equipped, as was the Second Car, with a

# STROMBERG CARBURETOR

Read what Chevrolet, the Victorious Driver of the Winning Buick, says of the Greatest Carburetor in the Entire World:

## Chevrolet Says:

"I have always driven high priced foreign cars during my American and European racing career and never found a Better, Simpler nor more Reliable carburetor than The Stromberg with which my winning Buick car was equipped, for throughout the race my lead was so small that a very few moments' stop to adjust it would have lost the race for me. I simply adjusted it upon the start and did not have to touch it again throughout the running of the entire 395 miles."

LOUIS CHEVROLET.

## Strang Says:

"My experience in driving the Buick car equipped with The Stromberg Carburetor has proved to me that every claim you make for it is True."

LEWIS STRANG.
