

TWO NEW DRIVERS

JOIN BUICK RACING TEAM AT
MERRIMACK TRACK.

Flint Car Will Be Well Represented
at Big Lowell Auto Speed
Meet This Week.

Boston, Sept. 6.—The Buick boys are on the Merrimack course at Lowell, Mass., having arrived with fifteen cars and four mechanics last Thursday.

Two new drivers have been added to the team—Arthur Chevrolet, the young brother of Louis Chevrolet, the Cobe cup winner, and Ray Harroun, of Chicago, a western driver of note, but who has been out of the automobile racing game for two years, making aeroplane experiments. Lewis Strang, the winner of last year's Lowell race; Bobby Burman, the sensation of the last race here; Louis Chevrolet and George DeWitt, the old members of the team, are pronounced favorites in practice and are known to every farmer along the course.

For the sweepstakes events on today's program there are two Buicks entered in each of the three races. The three races are to be run at the same time, the smaller and middle-weight cars going shorter distances than the big cars. In the speed trials over a mile straightaway course on Tuesday there are nine Buicks entered in the different classes, while in the national stock chassis, 318 miles race on Wednesday, Strang, Chevrolet and Burman will carry the Buick colors. Strang's eight-cylinder speed car will have its first race in the speed trials on Tuesday.
