

December 29, 1930.

Pitcairn Aircraft, Incorporated,
Attention: Mr. E. T. Asplundh,
Pitcairn Field,
Willow Grove, Penna.

Gentlemen:

After running the motor we have prepared for you on the stand, we find that we have a little more work to do on the oil drainage on account of the six degree running position, and this will delay probably two days more the shipping to you of that engine.

Hoping this will not inconvenience you, we remain,

Yours truly,

CHEVROLET AIRCRAFT CORPORATION

Re: motor aircraft, incorporated,
Attention: Mr. E. T. Hopkins,
Pitcairn Field,
Wilmington, Iowa.

Sir:

After running the motor we have prepared for you on the stand, we find that we have a little more work to do on the oil drainage on account of the six degree running position, and this will delay probably two days more the shipping to you of that engine.

Hoping this will not inconvenience you, we remain,

Yours truly,

CHEVROLET AIRCRAFT CORPORATION
