WALTER P. CHRYSLER
CHAIRMAN OF THE BOARD

July 15, 1955.

Mr. Harold F. Pitcairn,
1820 Land Title Building,
Philadelphia, Pa.

Dear Mr. Pitcairn:-

I have your favor of July 3rd with reference to your Autogiro interests investigating various engine developments.

We are doing research on a great many things and feel it is only once in a while that something develops which may be of commercial use. Anything that we have at present along the lines you suggest are not developed to a point where we are as yet particularly interested and are not being pushed very hard for the moment.

As time goes on if we have something along this line that we think would be of interest, I shall be happy to get in touch with you when it is sufficiently developed.

With kind personal regards,

Very truly yours,

W P Chrysler
Chairman of the Board.
