MIDDLETOWN MAY GET AIRPLANE FACTORY

Middletown, July 10.—Possibility of location of an airplane factory in this city near the new Middletown Airport was indicated by Carl A. Wevat, Director of the Bureau of Trade and Commerce of the Civic Association, following a visit to this city of J. F. Fasig and M. M. Douglass, of Wilbur Wright Field, at Fairfield, Ohio. The Fairfield men propose to build a new type commercial plane, using a new airplane designed by Louis Chevrolet.
