

# DEUSENBERG CARS ARE FIRST ENTRIES

## Gaston Chevrolet and Hugo Waldo in Auto Race Meet Here.

Two Deussenberg cars nominating Gaston Chevrolet and Hugo Waldo as pilots, is the first team of entries clinched by the Southeastern Fair management for the Southeastern sweepstakes event and the two days of automobile racing scheduled for the Lakewood park track May 3 and 4.

In the selection of the two pilots the Desuensebergs have followed the usual custom of teaming a youngster with a veteran as little is known of the driving ability of Waldo, who comes from the east; but the fact that that he is hooked up with a veteran of Chevrolet's caliber stands sponsor for his ability.

The name of Chevrolet has been known to the motor racing world for the past ten years, and it was revived with a "bang" last year on the speedways when the Chevrolet brothers sprung the two Frontenac sensations which gained the reputations of being the fastest mounts on the speedways last year.

First and second on the Cincinnati speedway was the best win they put over last season, however, as the two Frenchmen had trouble making the light speedy mounts stand up for the distance. At Uniontown both turned "turtle" while running one, two, and the latest dope on the Frontenacs is to the effect that they will be kept in the stable this season.

Gaston signed up to drive a Deussenberg, and the Atlanta races will be his first appearance this season.

The fair management is to be congratulated on securing two Deussenberg entries, as they were consistent winners on the speedways last season.
